1 Notes on Spring 2018

- In chapter 4: Add specificities and sensitivities of real world tests.

- In Chapter 5 Section 1: Probabilities of unusual events are incorrectly defined as $P(X > x) \leq 0.05$ instead of 0.025

- Add the probability distribution in Group work 5 to D2L

- Add legal system analogy to hypothesis testing to chapter 8 slides

- Change teen driver 2 sample proportion test to be two sided
